St. Margaret House 49 Fulton Street New York, NY 10038)	DISTRIBUTED OF N.Y.
Joseph Breed St. Margaret House 49 Fulton Street New York, NY 10038 Defendants))))	COURT 4: 24 Y.

COMPLAINT

Comes now Joshua Hope, the plaintiff, acting by and through counsel, respectfully file this complaint against Defendants U.S. Housing and Urban Development, Defendant St. Margaret House under the Trinity Church, and Defendant Joseph Breed, to this Honorable Court. Plaintiff states and alleges as follows:

PARTIES

The Plaintiff Joshua Hope, 87 now, is a citizen of the United States of Chinese origin, and a resident of New York, domiciled at 49 Fulton Street, Apt. 17 E, New York, NY 10038.

Plaintiff was singled out by Mr. Joseph Breed, the Administrative Director of St. Margaret House management, for abusive punishment in deep-hatred retaliation against his outspoken expression of objection to the management's ill and brutal treatment against the plaintiff's fellow, similarly helpless senior citizens living in St. Margaret House, the building under Section 8 Federal Subsidy program.

Defendant Joseph Breed, is a citizen of the United States and a resident of the State of New York, who is believed to be domiciled at 49 Fulton Street, New York, NY 10038. Defendant Joseph Breed is believed to be the Executive Director for St. Margaret House, and responsible for its daily management. Defendant Joseph Breed is believed to having been playing key role in all scheme of on-going ruthless persecution targeting the Plaintiff simply because he feels uncomfortable to see a person publicly exercising his 1st Amendment rights living, breathing and walking under his eyelid.

Defendant St. Margaret House under the Trinity Church is a corporation incorporated in the State of New York with the business address for its place of principal business at 49 Fulton Street, New York, NY 10038. Defendant St. Margaret House is the landlord in relation to the Palintiff, the tenant. Defendant owns and possesses the Federally subsidized Building which is situated at 49 Fulton Street, New York, NY 10038. Defendant St. Margaret House hires and continues to hire such employee as Defendant Joseph Breed, negligently and recklessly gives Defendant Joseph Breed free hands to rule the place under the terror of persecution or of threats of persecution against those helpless senior citizens, allowing the scandalous epidemic of nursing home type persecution against the aged to infect without taking necessary quarantine measures;

Defendant Federal Housing and Urban Development (HUD) is a U.S. Federal Agency which is entrusted to administrate part of this nation's tax payer's funds, specifically allocated

by the Congress of the United states, to fund the eligible under-income aged and disabled citizens by subsidizing their rent payment under Section 8 program in relation to this instant case. In this instant case, Defendant HUD has recklessly violated its fiduciary duty by allowing and abetting such wicked property owner as St. Margaret House to use the Federal funding as its weapon to commit gross civil rights violations; It is also believed to have breached its fiduciary duties to abuse the funds under Section 8, by giving the mis-identified land owner, who is not the ultimate beneficiary of such vested property rights of our Federal rental subsidy, free hands to commit gross civil rights abuses against the beneficiaries of such vested property rights under Section 8 program, by and through abusing the Federal funds under the program without taking any action to halt the on-going abuses.

JURISDICTION AND VENUE

The subject matter jurisdiction is herein claimed as Federal Question jurisdiction pursuant to 28 U.S.C. § 1331. In this instant case, Defendants, through actions or omissions, jointly or severally committed such serious civil rights violations and such civil torts against the plaintiff as assaults, false arrests, false imprisonment, intentional/negnigent inflict of emotional distress, persecutorial/retaliatory eviction, fraud and perjury, and negligence.

Defendant HUD is a Federal agency administrating the Federal housing subsidies under Section 8 has abandoned its administrative role to allow co-defendants to abuse such power deriving from such Federtal funds to persecute the Plaintiff, recipient of such Federal rental subsidy, the intended beneficiary under the Federal financial subsidy program tramping his lawfully protected civil rights by life threatening violence and fraud, have triggered Federal question jurisdiction.

Federal question jurisdiction is a term used in the United States law of civil procedure to refer to the situation in which a United States federal court has subject matter jurisdiction to

hear a <u>civil case</u> because the plaintiff has alleged a violation of the <u>Constitution</u>, <u>laws</u>, or <u>treaties</u> of the United States.

Article III of the United States Constitution permits federal courts to hear such cases, so long as the <u>United States Congress</u> passes a statute to that effect. However, when Congress passed the Judiciary Act of 1885. The statute is now found at 28 <u>U.S.C.</u> § 1331: "The district courts shall have original jurisdiction of all civil actions arising under the Constitution, laws, or treaties of the United States."

This Honorable District Court's jurisdiction under 28USC 1331 is also found in the underlying cause pursuant to U.S. Federal Civil Rights Act under 42USC 1983 claimed pursuant to Conspiracies to Interfere With Civil Rights (See [[USC:42:1985|42 U.S.C. § 1985]); Conspiracy Against Rights of Citizens (See 18 U.S.C. § 241); Deprivation of Rights Under Color of Law, (See 18 U.S.C. § 242); The Jurisdictional Statue for Civil Rights Cases (See 28 U.S.C. § 1443);

The venue is proper in this judicial district under 28USC 1391(a) because the subject matter claimed arose herein the State of New York, and all defendants are residing within this Judicial District.

NATURE OF THE CASE

- Obviously in frivolous nature, this case was originally brought by Defendant St.
 Margaret House against Plaintiff Joshua Hope, as a hold-over proceedings with the New York City Court, Housing Part, with the L&T Index number of 102744/06, seeking for eviction of this Plaintiff from the premise under Federal rental subsidy program under Section 8, pursuant to 24 CFR 247.6, Eviction for Good causes.
- 2. This case should be removed into U.S. District Court due to the fact that New York Housing Court's summary proceedings of eviction under the wrongful label of hold over does not have subject matter jurisdiction into the extended areas of intentional torts, constitutional issues, issues arising from civil rights violations under 42USC1983, neither does the proceeding provide full fledge evidentiary hearings, nor trial by jury.

- 3. The on-going abuses against the Plaintiff has raised Federal Housing rights issues. Most importantly, they have triggered serious Federal civil rights issues. The U.S. District Court is the proper forum to hear the grievance in such a nature. The New York City Court of Housing Part does not appear to be a proper and competent forum concerning the subject matter jurisdiction. Defendants' commission, coupled with co-defendant HUD's omission, has triggered Federal actions Title 42, Section 1983 under by private actions. Such action is appropriate in light of Wright v. City of Roanoke Redevelopment Authority, 479 US 418.
- 4. In landlord tenant dispute concerning Federal rental subsidies and related "property rights" issue, the subject matter jurisdiction is appropriate in this jurisdiction according to most recent landmark case. "The Court found that the language of the statute *created a federal right for the tenants*, and the intent of the statute, particularly in the absence of contrary language, create *a private right of action for the tenants to enforce its provisions*. Notably, the Court recognized that the entire intent of 42 U.S.C. §1427f(t) to permit eligible families in projects opting out of the Section 8 program to remain in their homes and receive enhanced rental subsidies would be defeated *if the tenants were denied access to the courts* and *the landlord were permitted to bring eviction actions against them...*" Based on such a rationale, the U.S. District Court under the Honorable Judge John Gleeson, grants the tenants' motion for a preliminary injunction barring their landlord from refusing to renew their leases and ordering the landlord to accept the tenants' Section 8 enhanced vouchers. See Estevez v. Cosmopolitan Assocs. LLC, No. 05-CV-4318 (JG), 2005 WL 3164146, 2005 U.S. Dist. LEXIS 29844 (E.D.N.Y., Nov. 28, 2005, Gleeson, J.)

INTRODUCTION

5. Plaintiff Joshua Hope, age of 87 now, is a U.S. citizen of an ethnic Chinese origin.
Plaintiff is currently residing inside Trinity Church run St. Margaret House, at 49 Fulton Street, Apt. 17E, New York, NY 10038. Plaintiff, together with his spouse, now deceased, has been residing in that building, as the recipient and beneficiary of the

Federal rental subsidy under Section 8, since 1987, for approximate 2 decades. Plaintiff and his then spouse, were elected to be the model residents of the entire building for three consecutive years during the period from 1995 through 1998. Plaintiff has long been highly acclaimed by his neighbors for his excellent public image and his ethical and moral raw model role there. However, Plaintiff was singled out by Mr. Joseph Breed, the Administrative Director of St. Margaret House management, for abusive retaliation against his outspoken verbal criticism opposing the management's patterns of ill, and brutal treatment against the helpless senior citizens living in St. Margaret House, the building under Federal Subsidy program under Section 8. The Defendants' numerous tortuous actions accomplished via Mr. Joseph Breed, is seen a scheme of serious civil rights abuses designed and devised to curtail and suppress any vocal protests from the elderly and handicapped residents of the Building who are relying upon the Federal rental subsidies under Section 8.

Defendant Joseph Breed, the Administrative Director of the St. Margaret House, for unknown causes, either for ideological or pragmatic reasons, has demonstrated his peculiar prejudice, hatred and hostility against these poor, under-income, aged and handicapped residents of the St. Margaret House. Shortly after Defendant Joseph Breed was appointed, he immediately ordered to remove both fans which had been originally installed in the passage of each floor nearby elevator and the fan inside elevator, and to shut the window to block the air circulation. Defendant's efforts in turning the public passage area into a hot pot turn out to be successful. Consequently, his order of removal of these cooling facilities for nobody-knows reason, has exposed all those aged residents in their 80s and 90s to the drastic changing temperature of up to 110 degrees in the passage while they are walking out of the AC-controlled apartments, waiting for usually slow-responded elevator. Defendant Joseph Breed's unknown, mischievous hobby to turn the air-circulated public passage into air tight "melting pot" did not stop there. Several months after removal of fans, he further ordered to permanently shut all originally adjustable glass windows by dead screw on every floor, having made things from bad to worse. Plaintiff repeatedly reminded the management under Defendant Joseph Breed that the air-proof public elevator waiting area under the "green room

effect" without AC is too hot. Plaintiff offered an alternative by reinstalling blinds to block the burning sunlight on his floor at his own cost. Plaintiff's offer was flatly rejected by Defendant Joseph Breed. In order to raise the attention to the management and neighbors, plaintiff placed a thermal meter outside his apartment, alerting all fellow residents of the high temperature by reading his thermal meter. Plaintiff's actions by offering to installing blinders and hanging the thermal meter outside his apartment was deemed as an open opposition designed to defeat Defendant Joseph Breed's unknown mischievous program.

- In or about September 2000, Defendant Joseph Breed "creatively" found his better way to quickly increase the income by commercializing the the lobby areas of the building under Federal rental subsidy program, through inviting, introducing and attracting outside strangers from nearby streets into the building's dining halls and other lobby areas, for such commercial purposes as selling them food and drinks, leasing them spaces for wedding parties, turning large portion of private place specifically used for those elderly and disabled occupants into a lucrative open marketplace. In the meantime, Defendant Joseph Breed also rented large portion of the lobby areas to Vincent Hospital as its outlaying clinics. Defendant Joseph Breed's commercialization program has driven these helpless, virtually voiceless residents into an ever-condensed narrow areas.
- 8. Defendant Joseph Breed's ultra-smart pocket-deepening plan had caused public outcry. Vocal criticism appeared in public posting areas. In response to the growing wave of complaints, Defendant Joseph Breed decided to "curtail", if not completely "take back", the residents' "privilege of speech" through public posting boards. In or about later 2000, Defendant Joseph Breed, by and through St. Margaret House Management, issued an ordinance banning all residents' postings without being submitted for contentsprescreening, while none should be leaked for publicizing on the public posting areas unless and until granted by the management for permission of posting after the latter's content-review. Defendant Joseph Breed's such actions were encountered with vocal criticism from none but Plaintiff Joshua Hope.
- On August 2, 2005, Defendant Breed called for a meeting by all residents. On that 9. meeting, he made a public pronouncement that the management decided to drastically

increase the price of the mandatory meal, the lunch meal which Defendant St. Margaret House coerces all residents to buy as part of the tenants' duty. Defendant entered into a new contract in value-added price with a Chinese restaurant as supplier who has long been condemned by the residents for poor quality of food in comparison to the average of the locality. Eight residents were allowed to give opinions, all opposed the unilateral increase of price for that originally thankless coercive meal. While, Plaintiff Joshua Hope raised his hand all the time, waiting for his turn to speak, Defendant Joseph Breed declared the meeting was over.

Page 8 of 33

Document 12-6

Case 1:07-cv-04726-RJS

- 10. The sharp increase of the mandatory meal price has since broken the peace and harmony of the building. Residents there aired their protests and petitions through different means. Plaintiff was also invited to join the residents organization meetings discussing counter-measures towards the management. Plaintiff's active involvement in the growing residents opposition has caused Defendants' alert. Defendants' patience and tolerance went thin when they found Plaintiff Joshua Hope took the media interview, petitioned to the Mayor's office, calling for intervention of the management's maltreatment against his fellow residents as of seniors and disabled. A premeditated reprisal and retaliations, employing fraudulent and deceiving behavior, targeting Plaintiff Joshua Hope had been started by St. Margaret House under Joseph Breed.
- 11. To implementing the premeditated retaliation targeting Plaintiff Joshua Hope, Defendant Joseph Breed plotted and caused to happen, six such incidents as assaults, false arrests, false imprisonment, by wrongfully using New York Police forces through false-alarming "911 calls" to the NYPD during the short period from August 2006 through November 1, 2006. In all these vicious plots, Defendants St. Margaret House, under the manipulation of Defendant Joseph Breed, for the unlawful purpose of retaliation against the Plaintiff for his outspoken expression of objection to management, Plaintiff, then 86, was defamed and tarnished as an attempted murderer, violent attacker, violent vandals who vandalized public properties, and violent lunatic who needs to be immediately confined in compulsory asylum for psychiatric treatment. These plots was accelerated into its ecstasy on November when Defendants maliciously, and viciously caused dispatch of a

crew of six police officers from the 1st Precinct of the NYPD. Acting on Defendants' false information by lie, these police officers falsely arrested the Plaintiff in front of all on-looking neighbors, forcibly sent the Plaintiff into Bellvue Hospital, Psychiatric Department for mandatory psychiatric evaluation. Where the Plaintiff, a mentally healthy, and a law abiding senior citizen of 86 of age, was imprisoned in a confined area for approximately 10 hours, being forcibly undergone all steps of psychiatric diagnosis to ascertain whether he is a mentally troubled patient. The Plaintiff was finally released from the coercive confinement when doctors there, after taking full diagnostic procedures, declared that Plaintiff was mentally healthy and normal. (Please see Exhibit 1.) Defendants knew and should have known that Plaintiff Joshua Hope is an aged man of 86, in fragile health while exposing him under such naked police violence and brutality, also exposing him as a falsely labeled "mentally disordered trouble maker" being overpowered by large police task force in front of neighbors will cause life threatening emotional distress, mental anguish, endangering his fragile life. Nevertheless, Defendants prompted the occurrence of such serious matters by crude lie and fraud.

- 12. Defendants' such violent actions of hatreds maliciously borrowing the hands of law enforcement by fraud and lie, have severely harms Plaintiff's dignity and health. Under the growing pressure of such violently brought distressful events, plaintiff, the victim of such lethal plots, plaintiff, aged 86 then, has collapsed in his health, his family Physician Dr. Liu diagnosed that plaintiff is living under the life threatening condition. (See Exhibit #2); Defendants knew or should have known that Plaintiff was then an 86 year old in fragile health, still they have maliciously caused all these severe personal injuries to occur.
- 13. Defendant Joseph Breed and Defendant St. Margaret House's commissions of these intolerable violence and torts against the Plaintiff have grossly violated the civil rights under Title 42, Section 1983 of USC. Such violations have been properly reported to the

- New York Attorney General's Office, and also being Complained in writing to the Office of U.S. Housing and Urban Development (HUD).
- 14. The record shows that in implementing these retaliatory plots in order to forever silence the Plaintiff, Defendant Joseph Breed employed unsophisticated lies and fraud to achieve his lethal game targeting an 86 year old senior citizen. By having committed fraud to achieve its dramatic and probably lethal outcome. Defendant Breed repeatedly lied to all, including all law enforcement agencies. In the Police Report of October 28, 2006 event, Defendant Joseph Breed, pretended to be a "victim", lied to the police that Plaintiff Joshua Hope, 86, wanted to "shoot" Defendant Breed, having failed short in explaining using what sort of weapon to "shoot": In support of the Defendant's false charge about the Plaintiff's "violent propensity", Defendant Joseph Breed further lied to the police that Plaintiff, again, 86 then, "had smashed windows", while, again failing short to pinpoint which window of the building had been "smashed". (Please see Exhibit 3) Using such sort of fraudulent charges, defendant Joseph Breed deceived the police department to help him achieve his vicious retaliation plot targeting the Plaintiff, having caused assault, false arrest and false imprisonment. In plotting and causing severe civil rights violation against the plaintiff, Defendant had committed fraud by lying to the law enforcement agency, because Plaintiff has never had any possession of weapons, neither has he been able to learn how to "shoot" or how to say "shoot" to anybody. Accusing Plaintiff to have "smashed window" is also a sheer lie, there was not a single piece of window having been found "smashed" during the period.
- 15. Coupling with the above-referenced violent torts against Plaintiff, Defendant St. Margaret House under Defendant Joseph Breed, started its frivolous actions and proceedings to evict Plaintiff for alleged "other good causes". Having popped up approximately twenty alleged incidents, again using the habitual pattern of fraud, tarnishing Plaintiff to be a trouble maker, allegedly causing public nuisance, Defendants unilaterally interrupted the automatic annual renewal of the lease, declared the termination of Plaintiff's rental subsidies under Section 8 by HUD, declared that plaintiff is a "hold-over" occupant. In disregard of the fact that more and more counter evidence speaks loudly by itself that Defendant Joseph Breed, the principal architect of this whole

- retaliation/persecution campaign, has committed serious fraud and perjury, defendants chose a sort of summary eviction against hold-over occupant proceedings by bringing the eviction action in the New York City Court, Housing part in December 2006.
- 16. Defendants, relying upon the huge wealth and resources accumulated by the Trinity Church for hundreds of years, Defendants repeatedly and flatly rejected Plaintiff's counsel's proposal for reconciliation and settlement, determined to rip off the Plaintiff's vested property rights in his 20-year long rental subsidies, and kicking the 87-year old into street. The furtherance of on-going persecution campaign in color of law placing Plaintiff under constant pressures and mental distress, having caused life threatening health hazards against Plaintiff.
- 17. None of these commissions and omissions are initiated with legitimate causes. Defendant Breed did not cover up the real cause underlying the alleged cause of actions: to suppress the Plaintiff's vocal expression as a proper exercise of his 1st amendment rights. Defendant admitted to the Police that the dispute between he and Respondent was caused by dispute over the "food price" ("At T/P/O, complainant (Joseph Breed added) states that a dispute erupted over food prices at perpetrator's (Joshua Hope added) residence...Both parties have had previous verbal disputes in the past." See Exhibit #1, supra). Defendants have been seeking to curtail the occupants' proper exercise of their 1st by using un-restrained repressive measures in color of law by using such illegal means as fraud, violence, torts, and abuse of civil proceedings.
- 18. The tortuous acts against the Plaintiff is also seen racially motivated. The Plaintiff is singled out for a targeted retaliation because he is a U.S. citizen of Chinese origin. This is just another proof of serious violation of the Plaintiff's civil rights. In pursuing this racially motivated, retaliatory type, heinous abuses against Plaintiff for his vocal expression criticizing the defendant's mandatory meal policy, Defendants caused police brutality against Respondent six (6) times during a brief period from August 2005 through November 2006. Such police brutality as an instrument to serve the petitioner's ulterior motive, maliciously exploited by the Defendants, had been accelerated into its climax in November 2006 when Mr. J. Breed lied to the Police of 1st Precinct that Respondent was mentally troubled. As the result of such misinformation, a task force

squad of police rushed to the scene, for the 6th time, falsely arrested Plaintiff and falsely imprisoned him for a whole day on November 1, 2006, ordering for the latter's coercive psychiatric evaluation. The mandatory psychiatric evaluation turned out that Respondent is mentally normal;

- 19. Defendant Joseph Breed's pattern of fraud has caught the eyes of the Psychiatrists in Bellvue Hospital. In the discharge sheet prepared by Bellvue Hospital as routine business records, the attending psychiatrist who did not know either Plaintiff or Defendants, inattentively, yet objectively recorded one incident of "Breed pattern" of lying: "police states 'patient was swinging his cane at residents". However, the record continues in another place: "According to his home attendant, patient has never swung his cane at the super (manager)." (See Exhibit #3, supra).
- 20. All cause of actions in this instant case falls under Federal Question Jurisdiction under 28 USC 1331. Plaintiff in this case do have claims under the Fair Housing Act of 1968, as amended, 42 USC 3601 et seq, and the Civil Rights Act under 42 USC Section 1981, 1982, 1983. Plaintiff may also have state claim under New York Executive Law, while the State of New York has a quasi-sovereign interests in protecting residents from irreparable harm threatening the life, safety and dignity of the elderly under Section 8 programs, preventing the harmful effects of basic human rights violations, discrimination in retaliatory manner in housing discrimination, and preventing substantial social and economic harm created thereby.
- 21. The underlying cause of action of this instant case is that Defendant St. Margaret House and Joseph Breed, with the negligent reckless assistance from Co-Defendants HUD. have committed severe civil rights abuses against the Plaintiff, an elderly of 87 now, a recipient of Federal Section 8, rental subsidy for almost 20 years, was brutally ripped off his vested property rights in approximately \$1,300.00 per month rental subsidies without due process; When Defendant St. Margaret house, acting as the landlord, terminated the continuity of the Plaintiff's lease, it took the unilateral action by simply faxing the termination notice to Defendant HUD to have the later cut off such life and death support.

22. The Respondent has filed proper complaint with the Inspector General of the U.S. Department of Housing and Urban Development (HUD). The HUD has been well informed of on-going severe civil rights abuses against the Plaintiff, still it does not take any actions even to investigate the case. Instead, HUD continues to give such a wicked landlord free hands to allow the later to continue its full delegation of HUD's function to give-or-take the Federal rental subsidies. This sort of negligent inaction and reckless omission are the ultimate cause encouraging such wicked institution as St. Margaret House to exploit the loopholes in our Federal Housing subsidy programs and of their related Federal Regulations.

On going retaliatory eviction actions should have triggered the necessity to review the constitutionality of this instant case involving constitutional tort and torts under Title 42, Section 1983. Respondent has been the recipient of our Federal Government's rental subsidies under Section 8 for almost two decades, and such federally funded rental subsidies have become an integral part of the respondent's vested property rights concerning the Respondent's life or death. To allow such vital property rights of a citizen be deprived without due process is apparently unconstitutional. Unfortunately, the related Federal Regulations, such as Section 247 of CFR, concerning so-called "prohibition" of eviction, virtually gives more or less free hands to the heavily lobbying real property owners and real property profiteers, some of them are acting under tax exempt shelter of "charity organization" as Trinity Church in their dealing with those less helped tenants, including such privileges to evict the victims of their rough or sophisticated abuses, on the one hand, while allowing them to milking upon the benefits of tax payers' resource on the other. Section 247 provides such a vaguely defined criteria as "other good causes", allowing the landlord to terminate the federal housing subsidies to the desperately needed tenants at the landlord's unilateral discretion, a deprivation of property rights without due process, is unconstitutional, per se, and should be so judicially declared by a U.S. Court. With such an unconstitutional "enabling statute", rather than "prohibition" clause, the Petitioner had terminated the 2-decade old Federal Housing subsidies, a property rights, which had been kept by the Respondent, by demanding the Respondent to pay \$4,967.00 balance of rent, even though this case is still pending final disposition (See Exhibit #4). The balance representing the dollar amount of three-month Federal Rental Subsidies this Respondent had been entitled since approximately 2 decades ago. The Petitioner's action of presenting the \$4967.00 bill for the Respondent to pay even before the eviction proceedings are still pending has demonstrated that the Petitioner takes away the Respondent's property rights without respect of the latter's due process rights, while the current Federal Housing Statutes virtually allows such unconstitutional, unlawful practice. That is the let-go flood gate causing widely spreading nursing home type epidemic of abuse scandals against the elderly and handicapped by those powerful rats in our society. While Housing Court in this instant case has demonstrated strong inclination to bias, showing absolutely no fairness, which could even have been racially motivated, that is prejudicial to the tenant. The Respondent's grievance as being a victim of gross and life threatening civil rights abuse, and his property rights issue should be adjudicated in U.S. Courts. Now, based on the above, the Defendants jointly and severely committed the following counts of harms against Plaintiff Joshua Hope:

Count One: Violation of Federal Rights in Wrongful and Retaliatory Eviction All Defendants, through actions or omissions, jointly committed the wrongful and retaliatory eviction against the lawful beneficiary under Federal Rental Subsidies of Section 8. Defendant Joseph Breed and Defendant St. Margaret House have deliberately, maliciously plotted all sort of violent, and fraudulent acts to achieve their unlawful, immoral purpose to rip off Plaintiff's property rights in Section 8 by conspiring to pop up, by fraud and perjury, all disgusting, scandalous abuses leading to their frivolous state action to evict Plaintiff. Such illegal action as covert action of civil conspiracy against Plaintiff was in retaliatory nature in reprisal to Plaintiff's vocal criticism against Defendants mal-treatment of his fellow residents in St. Margaret House. Such Retaliatory Eviction is expressively prohibited pursuant to Section 223(b) and 223(c)(2) of the New York Real Property Law. Such wrongful eviction is also subject to penalty of RPAPL 853. The retaliatory eviction initiated from the defendants' illegal intention to suppress the plaintiff's proper exercise of his 1st, by ripping off his Federal grant, is apparent violation of the

Plaintiff's property rights under 5th and 14th, in connection to violation of his civil rights under Title 42. The co-defendant HUD has virtually abandoned its federally entrusted duties, by its negligent inaction, in aiding and abetting the primary defendants, usually the powerful real property tycoons and profiteers, to oppress the helpless tenants to whom our Congressional Enactment originally means to help, support and protect, through diligent administration of HUD by revoking Plaintiff's Section 8 benefits.

Count 2: Assault and Battery

Defendant Joseph Breed, acting both within and outside the scope of his active, continuing employment as the Manager for Defendant St. Margaret House under the Trinity Church, and Defendant St. Margaret House, and Defendant St. Margaret House, have jointly committed assault and battery for the civil rights violations against Plaintiff's person, achieved with the assistance of six New York City Police Officials, on November 1, 2006, in addition to all other similar violent, oppressive incidents, when the Defendants intentionally, maliciously and fraudulent caused violent and offensive touch and subduing of the Plaintiff's person. In such an apparent civil rights abuse engaged under Defendants' fraudulent misinformation, Defendants directed, manipulated, incited, aided and abetted such assaults and battery against Plaintiff. Such assault and battery have caused lethal and crippling harm against the Plaintiff, an innocent victim of 86 then, now 87. The ultimate reason for Defendants to cause such harm is to serve the Defendants' unlawful intention to suppress the Plaintiff's proper exercise of his 1st Amendment rights, these assault and battery are also seen as gross civil rights violations against the victim Plaintiff.

Count 3: False Arrest

Defendant Joseph Breed, acting both within and outside the scope of his active, continuing employment as the Manager for Defendant St. Margaret House, and Defendant St. Margaret House, under the Trinity Church, have jointly committed false arrest as gross civil rights violations against Plaintiff's person, achieved with the assistance of six New York City Police Officials, on November 1, 2006, in addition to all other similar violent, oppressive incidents.

Case 1:07-cv-04726-RJS Document 12-6 Filed 11/13/2007 Page 16 of 33 when the Defendants intentionally, maliciously and fraudulent caused violent and offensive attachment of person of the Plaintiff, by restricting his liberty of movement. In such an apparent civil rights abuse engaged under Defendants' fraudulent misinformation, Defendants directed, manipulated, incited, aided and abetted such false arrest against Plaintiff. Such false arrest have caused lethal and crippling harm against the Plaintiff, an innocent victim of 86 then, now 87. The ultimate reason for Defendants to cause such harm is to serve the Defendants' unlawful intention to suppress the Plaintiff's proper exercise of his 1st Amendment rights, false arrest is

also seen as gross civil rights violations against person the victim Plaintiff.

Count 4: False Imprisonment

Defendant Joseph Breed, acting both within and outside the scope of his active, continuing employment as the Manager for Defendant St. Margaret House under the Trinity Church, and Defendant St. Margaret House, have jointly committed false arrest as gross civil rights violations against Plaintiff's person, achieved with the assistance of six New York City Police Officials, on November 1, 2006, in addition to all other similar violent, oppressive incidents, when the Defendants intentionally, maliciously and fraudulent caused police-aided confinement of person of the Plaintiff, by restricting his liberty of movement in such confined, liberty-deprived zones as Police vehicle and the confined zone of psychiatric department of Bellvue Hospital for approximately 10 hours. In such an apparent civil rights abuse engaged under Defendants' fraudulent misinformation, Defendants directed, manipulated, incited, aided and abetted such false imprisonment against Plaintiff. Such false imprisonment have caused lethal and crippling harm against the Plaintiff, an innocent victim of 86 then, now 87. The ultimate reason for Defendants to cause such harm is to serve the Defendants' unlawful intention to suppress the Plaintiff's proper exercise of his 1st Amendment rights, such false imprisonment is also seen as gross civil rights violations against the victim Plaintiff.

Count 5. Intentional Inflict of Emotional Distress

Defendant Joseph Breed, acting both within and outside the scope of his active, continuing employment as the Manager for Defendant St. Margaret House under the Trinity Church, and

Defendant St. Margaret House, have committed malicious and intentional inflict of emotional distress, when defendants intentionally, by fraud and perjury, through conspiracy, plotted to expose, and actually exposed the Plaintiff, then age of 86 with all vulnerable weakness, in false light of having committed unlawful acts, or mentally disordered acts, in front all his onlooking neighbors, at 9:30 am, to have been overpowered by six police officers with two police cars. The se acts are extreme and outragreous, not tolerable to any minimum decency of civil society, especially when it has caused severe health consequences towards an 86 year old. When the false arrest as gross civil rights violations against Plaintiff's person, achieved with the assistance of six New York City Police Officials, took place on November 1, 2006, in addition to all other similar violent, oppressive incidents, plaintiff felt extremely anguished for the har against his dignity and public image. In such an apparent civil rights abuse engaged under Defendants' fraudulent misinformation, Defendants directed, manipulated, incited, aided and abetted such public show of false arrest against Plaintiff in front of public eyes. Such police brutality has caused lethal and crippling harm against the Plaintiff, an innocent victim of 86 then, now 87. The ultimate reason for Defendants to cause such harm is to serve the Defendants' unlawful intention to suppress the Plaintiff's proper exercise of his 1st Amendment rights, such false imprisonment is also seen as gross civil rights violations against the victim Plaintiff. Defendant St. Margaret House has at least recklessly allows its employer Defendant Breed to engage such tortuous acts without proper supervision of his behavior.

Count 6. Malicious Abuse of Civil Procedures in Gross Violation of Civil Rights In causing all these harmful, and lethal civil rights violations against the victim Plaintiff, Defendants, apparently knowing they have no cause of action in such a retaliatory eviction against the Plaintiff, plotted to have started a completely frivolous civil actions, dragging the Plaintiff, now 87, into the Housing court proceedings, with the purpose to further harming the Plaintiff by constant mental anguish, in the meantime, draining all his limited resources. The Defendants repeatedly, and flatly rejected the Plaintiff's counsel proposals for compromise and amicable settlement, and continuing its retaliations and fraud in the belief that the Housing Court

Defendants malicious abuse of civil proceedings with judge is sided with the injuring parties. Housing Court has caused further lethal harms proven by recent medical diagnoses.

Count 6: Civil Conspiracy

All Defendants, through actions or omissions; have jointly and severely caused, planned, designed, devised, involved, aided, encouraged, and help accomplished to allow all these gross civil rights violations/tortuous actions to occur against Plaintiff.

REMEDIES SOUGHT

Plaintiff seeks for punitive damages against all defendants jointly and severally for count 1 for \$1.00; or whatever appropriate by Jury;

Plaintiff seeks for actual, incidental and punitive damages for count 2 against Defendant Joseph Breed and St. Margaret House jointly and severely for \$100,000.00, or whatever appropriate by Jury;

Plaintiff seeks for actual, incidental and punitive damages for count 3 against Defendant Joseph Breed and St. Margaret House jointly and severely for \$300,000.00, or whatever appropriate by Jury;

Plaintiff seeks for actual, incidental and punitive damages for count 4 against Defendant Joseph Breed and St. Margaret House, jointly and severely for \$300,000.00, or whatever appropriate by Jury;

Plaintiff seeks for actual, incidental and punitive damages for count 5 against Defendant Joseph Breed and St. Margaret House for \$300,000.00, or whatever appropriate by Jury;

Plaintiff seeks for actual, incidental and punitive damages for count 5 against Defendant Joseph Breed and St. Margaret House for \$1.00, or whatever appropriate by Jury;

Plaintiff seeks for punitive damages against all defendants jointly and severally for count 6 for \$1.00; or whatever appropriate by Jury;

Plaintiff seek for permanent injunction barring all Defendants from committing any further retaliatory evictions;

Plaintiff seek for permanent injunction barring Defendant Joseph Breed from communicating. and further harassing plaintiff setting forth reasonable radius as the distance from touching communicating and meeting the Plaintiff. Concerning the fact that Defendant Breed has caused severe life threatening assault and risk to Plaintiff and such danger of further harming and threatening the plaintiff is continuing, Plaintiff respectfully pray for an TRO immediately banning the Defendant Breed appearing within 10 miles radius from Plaintiff's residence in order to preserve his fragile and endangered life.

Other remedies this Court finds it appropriate. Plaintiff also pray for fees and cost because he was double victimized not only for the harm he was sustained, but also by the endless harassment by the Defendants' persistent frivolous action on the housing court action. Plaintiff respectfully prays that this case be tried by Jury.

Respectfully submitted

Ning Ye, Esq.

Counsel for the Plaintiff 42-42 Union Street, #3C

Flushing, NY 11355

PAIN SCREENING

A. PAI	N SCREENING
1.	Do you have pain now? ()YES ()NO
2.	Have you had pain in the past 3 months? ()YES ()NO
3.	On a scale of 0 to 10, rate the pain you are feeling now:
•	0=None 5=Moderate 10=Severe
• 4.	Describe the pain ()Aching/throbbing ()Dull
	()Shooting ()Burning ()Sharp ()Pressure
•	()Other
5.	Where on your body is the Pain?
6.	When did the pain start? ()Today ()Days Ago
	()Weeks Ago ()Months Ago ()Years Ago
_ :	()Other
7.	What type of pain is it? ()Acute ()Chronic
8.	It is related to your current illness? ()Yes ()No
9.	What makes the pain worse?
10.	Does the pain affect your daily activities? ()Sleeping ()Eating
	()Walking ()Other
11.	Do you use any of the following? ()Yoga ()Massage
	()Chiropractor ()Acupuncture ()Magnets
10	()Alternative Therapy ()Other
12.	Do you have any medications to control the pain? ()Prescription
10	()Over the counter ()Injections
13.	Are you followed in a pain management program? ()Yes ()No
	If yes, please explain
1.4	William in many main level and 19
14.	What is your pain level goal?
	NOTE: Pain level of 4 and above, inform RN/STAFF of the receiving unit or facility.

GEORGE LIU, M.D., Ph.D., F.A.C.P.

INTERNAL MEDICINNE & ENDOCRINOLOGY 185 Canal Street, 6th Floor, New York, NY 10013 Tel: (212)343-7323 Fax: (212)343-7913

Dear Mr. Ning Ye:

On November 2, 2006, I received a phone call from Dr. Goldstein, an Emergency Medicine Attending Physician at New York Downtown Hospital, advising me that Mr. Hope was in the emergency room and asking me to come down to the hospital to participate in his emergency room evaluation. When I arrived, I found Mr. Hope lying on a stretcher in the emergency room hallway because the emergency room was so crowded that night that no exam room was available. Mr. Hope kept crying out "I want justice! I want justice!" He told me that that the reason he was in the emergency room was because he was suffering from headaches, heart palpitations and shortness of breath. Mr. Hope told me again that he had been suffering constant abuse and harassment by Mr. Breed. Mr. Hope explained that he believed that Mr. Breed was mistreating him because of Mr. Hope's prominent role in protesting Mr. Breed's decision to increase the price of mandatory meals for all the aging occupants at St. Margaret House. Furthermore, Mr. Hope described an incident that occurred the day before, on November 1, 2006, where an argument between Mr. Hope and Mr. Breed resulted in Mr. Breed calling the police to St. Margaret's House alleging violence, or attempts to commit violence by Mr. Hope. According to Mr. Hope, six police officers picked him at St. Margaret House and escorted him to Bellevue Hospital for psychiatric evaluation. Upon hearing the story. I thought that calling the police and detaining Mr. Hope at Bellevue Hospital was totally unnecessary and excessive. I have known Mr. Hope for twenty years now, and my observation is that he does not have a psychiatric condition. I have been told that the report from Bellevue Hospital came to the same conclusion.

I do not take any position as to who is right or wrong in the ongoing dispute between Mr. Hope and the administration at St. Margaret's House. I do not have actual personal knowledge of many of the recent events between Mr. Breed and Mr. Hope. As described above, most of what I know has been told to me by Mr. Hope. What I do know is that my 86 year old patient's health is deteriorating significantly to the point where it may be life-threatening; therefore, I want to provide whatever assistance I can to help alleviate the pressures that Mr. Hope faces at St. Margaret House.

Should you have further questions inferse feel 6

George Liu, MR, Ph.D., FACP
